DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claim 1 is to an adjustable rear lamp secured to sheet metal of a car and includes in the preamble a hole in the sheet metal of a car, then the body of claim has a threaded sleeve rotatably mounted in the hole, the threaded sleeve threadedly engaging the bolt, wherein rotation of the threaded sleeve in the hole causes the threaded bolt to travel along the axis of the threaded sleeve and a retaining clip releaseably connected to the threaded sleeve, wherein rotation of the treaded sleeve in the hole causes the retaining clip to rotate with the threaded sleeve.

This combination of limitations, in particular "a retaining clip releaseably connected to the threaded sleeve, wherein rotation of the treaded sleeve in the hole causes the retaining clip to rotate with the threaded sleeve" is not found or taught in the art of record.

Claims 2-7 depend from claim 1 and are allowable for the same reasons.

Claim 8 is to an adjustable lamp for a car and includes in the adjustable lamp designed for retention upon sheet metal within a car, then body of claim adds a housing, a bolt attached to the housing, a cylindrical sleeve threadedly engaging the bolt, wherein rotation of the threaded sleeve causes the threaded bolt to travel along the axis of the threaded sleeve a retaining clip adjacent to threaded sleeve that threadedly engages the bolt.

This combination of limitations is not found or taught in the art of record.

Claims 9-12 depend from claim 8 and are allowable for the same reasons.

Art Unit: 2875

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
